FOR IMMEDIATE RELEASE

Biodex Medical Systems, Inc. exhibiting at Arab Health 2015

November 21, 2014, Shirley, NY – Biodex is pleased to announce it will be participating in the 2015 Arab Health Exhibition and Congress. Serving the medical profession for more than 60 years, Biodex manufactures and distributes devices for physical medicine, nuclear medicine and molecular imaging, and medical imaging applications.

Physical Medicine

Biodex develops technology for advancing patient progress, addressing the weak or balance deficient. The rehabilitation technology addresses neuromuscular evaluation, therapeutic exercise, gait training and range of motion difficulties in patients suffering from Stroke, Parkinson's disease, Spinal Cord and Traumatic Brain Injury, Orthopedic afflictions and Vestibular issues.

Biodex Medical Systems' series of rehabilitation devices includes the Multi-Joint System 4 Dynamometer, Balance System™ SD, BioStep® Semi-Recumbent Elliptical, Gait Trainer™ 3 and Unweighing System. These devices can be applied to neurorehabilitation, sports and orthopedic medicine, senior rehabilitation, and wellness.

To support the products, Biodex offers programs and protocols for specific applications including fall risk screening and conditioning and balance assessment for concussion management.

Nuclear Medicine and Molecular Imaging

Biodex Medical Systems manufactures and distributes radiation shielding, protection and detection products for nuclear medicine, molecular imaging and radiation safety. Product offerings include dose calibrators, thyroid uptake, radiopharmaceutical chromatography, lung ventilation, exposure protection, cleanroom solutions, syringe shields, lead-lined cabinets, PET shipping systems and products to improve the image and procedure.

Medical Imaging

Biodex offers surgical C-Arm Tables for pain care, cardiovascular and urologic procedures and Ultrasound Tables designed for echocardiography, OB/GYN and other general procedures. Both lines of tables are designed with ergonomic advances for the safety and comfort of both the sonographer and patient.

In addition, Biodex manufactures personal radiation protection. All Clear-Lead barriers are designed for imaging procedures using ionizing radiation, offering durable shatter resistant protection wherever it's needed. The NEW Clear-Lead Personal Barrier is an adjustable height, lightweight barrier with convenient hour-glass design for hands-on access. The Mobile X-Ray barriers require little effort to maneuver and have a sleek, easy to clean design.

Visit Biodex booth # Z4AC17 for more information about all Biodex devices and products. Arab Health takes place January 26 - 29, 2015 at the Dubai International Convention & Exhibition Centre, Dubai.

If you are unable to attend the meeting and want to learn more about Biodex products, contact us directly at 1 800-224-6339 (Int'l 631-924-9000), visit our website, www.biodex.com, or email us at info@biodex.com.
