NxStep™ Unweighing System

Service Plans

Depend on the Biodex Service Plan.

1. As the manufacturer, Biodex has direct access to all parts; your service is performed by the same trained professionals who built your equipment.
2. Highest level of support at a very reasonable cost.
3. Preferred Customer Response Time.
4. Biodex will arrange pick-up and delivery of replacement parts.
5. Travel expenses are now covered.
6. PEACE OF MIND.

We designed and built your device.

Biodex prides itself on providing state-of-the-art-technology to address the technical and clinical needs of your clinicians. However, like any intricate piece of equipment, it will not function flawlessly forever... wear and tear is inevitable in even the highest quality product.

You put your trust in Biodex when you purchased the device, and the warranty was an integral part of your decision. Now that your warranty is expired, or about to expire, you can count on Biodex again to help protect your investment for years to come. Insurance is a part of life and we strongly suggest that you do not leave yourself unprotected.

Take advantage of this opportunity to extend your product warranty by purchasing a Biodex Service Plan today.
